

Connect for Health Pediatric Weight Management Program

Clinical Training Tools

- First Feedback Report
- Follow-up Feedback Report

Instructions:

- Rubric was created for the “Summary of Progress” Section.
 - These can be adjusted based on the metrics at your site
 - Once rubric is created you can easily copy and paste comments into this section
- Date ranges can be adjusted based on sites frequency of distribution
- Example: the template metrics shown capture a 3 month period and feedback report are distributed every 3 months

Summary of Progress comments options

- 1) (greater than 25%) - You’re doing great! Keep up the good work using the Connect for Health tools and improving care for your patients.
- 2) (less than 25%)- Good start! You have used the Connect for Health tools for some of your patients. To get the most out of these tools, please reach out to the Connect for Health team for support.
- 3) (0% to 10%) Change is hard. We want to help you increase your usage of the Connect for Health tools to improve weight management care for your patients. For 1-on-1 support from the Connect for Health team, contact [insert name].

[Clinician]

[Practice]

[Month] Personalized Feedback Report

Connect for Health is a pediatric weight management program that offers clinical Electronic Health Record (EHR) tools and family educational materials.

What does this report show?

This report shows opportunities for you to use Connect for Health tools to improve weight management care from [Inset time frame]

Found in the SmartSet or by searching "Connect for Health Pediatric Weight Management Text Messaging Program"

Connect for Health Best Practice Alert (BPA)

1. Adds the appropriate Body Mass Index (BMI) diagnosis using patient-friendly language.
2. Opens the pediatric weight management Smart Set, which has evidence-based guidance and integrated tools for text messages, labs, referrals, and follow-up.

Connect for Health Text Message Referral Order

This order enrolls parents in a text campaign to receive 1-2 messages per week for one year to:

- Provide support for families on behavior change.
- Connect families to behavior change resources.

How am I doing?	My usage	[Practice]
Eligible well-child visits* (Total)		
BPA's acted on (Total)		
% visits*, where BPA action was taken		
Referral orders placed (Total)		
% patients* referred to texts		
*well-child checks for 2-12 year old's with a BMI ≥ 85th percentile		

Summary of Progress

Change is hard. We want to help you increase your usage of the Connect for Health tools to improve weight management care for your patients. For 1-on-1 support from the Connect for Health team, contact [insert name]

Why this Matters

Connect for Health uses evidence-based approaches to provide the tools you need to deliver the best care for your patients who have overweight or obesity.
